

THE TANKBUSTERS FUEL TEST COMPARISONS.

SO WHAT'S IN YOUR TANK?

RUST WATER WITH DIESEL BUG
SITTING ON WATER SURFACE

SATURATED DIESEL
WATER & DIESEL

ALL THESE SAMPLES SHOW THAT
BOTH TANK AND FUEL NEEDS CLEANING.
FUEL SHOWING JUST HAZINESS IS
SATURATED DIESEL. WATER MIXED IN
WITH DIESEL AND WILL NEED CLEANING

IF YOUR FILTER LOOKS LIKE THIS
YOU HAVE THE DIESEL BUG

THIS FUEL HAS BEEN CLEANED TO 1 MICRON
AND CONTAINS LESS THAN 100 PARTS
PER MILLION OF WATER.
THAT'S CLEAN, DRY FUEL.

STILL NOT SURE? THEN GIVE THE TANKBUSTERS A CALL OR E-MAIL

Please attach photos of the worse sample along with your name, phone number and e-mail
